FAS-FAX

United States Newspapers

Circulation averages for six months ended September 30, 1990

Daily Newspapers

Preliminary figures subject to audits as filed with the Audit Bureau of Circulations.

INFORMATION FOR THE USERS OF THIS REPORT

ABC Daily Newspaper FAS-FAX reports are published semiannually in April and October and include selected data from regular Publisher's Statements as filed with ABC by publisher members. U.S. and Canadian newspaper data are published in separate volumes.

Circulation figures for most newspapers in this FAS-FAX report are six-month averages. In some cases, the annual audit reporting periods do not coincide with the generally used March 31 and September 30 closing dates and, in these cases, the figures are three-month averages (see note on symbols). Publisher's Statement Not Filed By Press Time indicates that the publisher has not filed their statement prior to the closing date of this issue of FAS-FAX.

As in the case of all data filed with ABC, the data are subject to confirmation by regularly scheduled audits. If there is a difference of two percent or more between the publisher's figures and the auditor's findings, and/or at the publisher's request, the previous year comparison figures shown in FAS-FAX are adjusted to the auditor's findings. Additional detailed information for each listed newspaper is contained in its Publisher's Statement and Audit Report.

City and Retail Trading Zones are market areas defined by the Audit Bureau. Newspaper Designated Market is that geographical area which is considered to be the market served by the newspaper. City Of Publication indicates circulation is reported by corporate city rather than zones or other optional methods. Detailed descriptions of census units comprising each newspaper's market definitions are contained in the regular Publisher's Statements and Audit Reports.

All ABC reports for newspaper members in the U.S. include county population and Occupied Households (OH's) estimates as of December 31 each year obtained from Sales & Marketing Management's (S&MM's) "Survey of Buying Power." Estimates for ABC-defined newspaper markets and areas below the county level are projections based upon "Survey of Buying Power" estimates. Occupied Households figures used in this report are December 31, 1989 Sales And Marketing Management estimates reported for the first time in this FAS-FAX report. The same figures will also be reported in March 31, 1991 Publisher's Statements and Audit Reports. Questions should be directed to Manager, Market Information.

Ratio Circulation/Occupied Households is a mathematical relationship of average paid circulation to occupied households within the designated area.

SYMBOLS

#	Identifies newspaper reporting circulation averages by Newspaper Designated Market. OH's and Ratio Circ/OH's data are applicable to that market designation.
@	Identifies newspaper reporting circulation averages by City Of Publication. OH's and Ratio Circ/OH's data are applicable to that market designation.
*	Identifies three-month circulation averages (see text above).
(a)	Identifies adjusted comparison figures (see text above).
(b)	Denotes change in publishing plan (i.e. Morning to Evening). As such, circulation for each period is reported on separate lines.
C	Participant, ABC Coupon Distribution Verification Service.
Z	Provides ABC Audited ZIP Code Analysis.

Approximately one week after the mailing of this report, a correction notice (if necessary) will be mailed by ABC. Approximately three weeks after the correction notice, a supplement to this report will be issued. It will list those new filers as well as pertinent updates.

ABC welcomes your comments and suggestions concerning this report.

FAS-FAX

United States Newspapers

Circulation averages for six months ended March 31, 1991

Daily Newspapers

Preliminary figures subject to audits as filed with the Audit Bureau of Circulations.

INFORMATION FOR THE USERS OF THIS REPORT

ABC Daily Newspaper FAS-FAX reports are published semiannually in April and October and include selected data from regular Publisher's Statements as filed with ABC by publisher members. U.S. and Canadian newspaper data are published in separate volumes.

Circulation figures for most newspapers in this FAS-FAX report are six-month averages. In some cases, the annual audit reporting periods do not coincide with the generally used March 31 and September 30 closing dates and, in these cases, the figures are three-month averages (see note on symbols). Publisher's Statement Not Filed By Press Time indicates that the publisher has not filed their statement prior to the closing date of this issue of FAS-FAX.

As in the case of all data filed with ABC, the data are subject to confirmation by regularly scheduled audits. If there is a difference of two percent or more between the publisher's figures and the auditor's findings, and/or at the publisher's request, the previous year comparison figures shown in FAS-FAX are adjusted to the auditor's findings. Additional detailed information for each listed newspaper is contained in its Publisher's Statement and Audit Report.

City and Retail Trading Zones are market areas defined by the Audit Bureau. Newspaper Designated Market is that geographical area which is considered to be the market served by the newspaper. City Of Publication indicates circulation is reported by corporate city rather than zones or other optional methods. Detailed descriptions of census units comprising each newspaper's market definitions are contained in the regular Publisher's Statements and Audit Reports.

All ABC reports for newspaper members in the U.S. include county population and Occupied Households (OH's) estimates as of December 31 each year obtained from Sales & Marketing Management's (S&MM's) "Survey of Buying Power." Estimates for ABC-defined newspaper markets and areas below the county level are projections based upon "Survey of Buying Power" estimates. Occupied Households figures used in this report are December 31, 1989 Sales And Marketing Management estimates. Questions should be directed to Manager, Market Information.

Ratio Circulation/Occupied Households is a mathematical relationship of average paid circulation to occupied households within the designated area.

SYMBOLS

#	Identifies newspaper reporting circulation averages by Newspaper Designated Market. OH's and Ratio Circ/OH's data are applicable to that market designation.
@	Identifies newspaper reporting circulation averages by City Of Publication. OH's and Ratio Circ/OH's data are applicable to that market designation.
*	Identifies three-month circulation averages (see text above).
(a)	Identifies adjusted comparison figures (see text above).
(b)	Denotes change in publishing plan (i.e. Morning to Evening). As such, circulation for each period is reported on separate lines.
C	Participant, ABC Coupon Distribution Verification Service.
Z	Provides ABC Audited ZIP Code Analysis.

Approximately one week after the mailing of this report, a correction notice (if necessary) will be mailed by ABC. Approximately three weeks after the correction notice, a supplement to this report will be issued. It will list those new filers as well as pertinent updates.

ABC welcomes your comments and suggestions concerning this report.

**In accordance with Rule C1.5, the Inquirer is required to report separately circulation for bundled days in excess of 15% of non-bundled days. This breakout is not comparative with prior reporting as it was not previously required. The Inquirer has two Sunday/Daily packages which are subject to separate reporting under Rule C1.5, Sunday/Wednesday and Sunday/Thursday/Friday. The Sunday/Wednesday average was less than the 15% threshold as established by said rule and is combined with the unbundled averages of Monday and Tuesday. The Thursday and Friday averages are shown separately as they exceed the Monday/Tuesday average by 15% or more.
